

STYLE 5200

Style 5200 is an extremely durable, highly abrasion-resistant aramid fiber packing impregnated with PTFE and treated with a high-temperature lubricant for ease of installation. It's a direct superior replacement for asbestos packings; it stands up to granular and abrasive services such as mine dewatering pumps, sewage treatment wash and slurry pumps, mixers, reactors, dewaxing units, drilling mud pumps, and water intakes for sandy conditions.

TEMPERATURE	-420°F to +500°F -251°C to +260°C
PH RANGE	2 - 12
SHAFT SPEED	To 2500 fpm
CONSTRUCTION	LATTICE BRAID® Aramid Filament
