

STYLE 90

Made solely from long-fiber flax, this firm packing is saturated with modified marine and petroleum waxes, plus a graphite lubricant. Completely waterproof, Style 90 is designed as a heavy-duty hydraulic packing, superior in resisting the cold water or oils in marine-type applications. Typical services include pumps for river sludge, plungers, centrifugal waste/water treatment, cooling tower feed, high-rated filter overflow feed, lagoon feed, and high-density filter backwash supply.

TEMPERATURE	To +220°F(+104°C)
PH RANGE	5 - 9
SHAFT SPEED	To 1000 - 1200 fpm
PRESSURE	To 300 psi (20 Bar) Rotary/Centrifugal
CONSTRUCTION	Square Braid
