

STYLE 5413

This long-fiber flax packing is widely used in the pulp and paper industry, and is a favorite in many others. It's premium grade, with PTFE impregnation, plus a surface coating of a fast start-up break-in lubricant. With no wash-out problems that serious limit conventional packings, Garlock Style 5413 has many water or dilute aqueous services including dewatering fan pumps, fire hydrants, slip-type expansion joints, accumulators, reciprocating rods, rams, and plungers, and pumps for cooling tower feed, high-density filter overflow feed, debarkers, washers and deckers, white water or stock fan, Fourdrinier vacuum, rotary sludge and plungers.
