

HIGH-PERFORMANCE SNOW PLOW BLADES

Premium Snow Plow Blades for Harsh Winter Conditions

A SINGER INDUSTRIAL COMPANY

When winter weather arrives, there's no room for downtime. Roads, parking lots, and runways must stay clear, safe, and open – and that requires dependable, high-performance equipment built to handle the toughest conditions. That's where Hanna Rubber Company comes in.

Designed to withstand repeated impact, freezing temperatures, and constant abrasion, our snow plow blades provide the performance you can count on season after season.

Why Hanna Rubber?

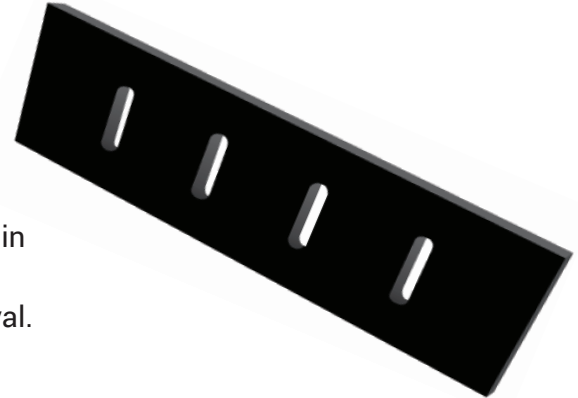

- **200 Years of Combined Experience**
- **Large & Diverse Inventory**
- **State-of-the-art Fabrication Equipment**
- **ISO Certification**
- **High-Value Solutions at Competitive Prices**

PREMIUM SNOW PLOW BLADES

Whether you're outfitting a fleet of municipal plows, maintaining airport runways, or keeping commercial lots clear, Hanna Rubber offers blade materials to meet your specific needs. Choose from our standard SBR (Styrene Butadiene Rubber) blades for proven toughness and value, or upgrade to our Polyurethane blades for premium longevity, surface protection, and quieter operation.

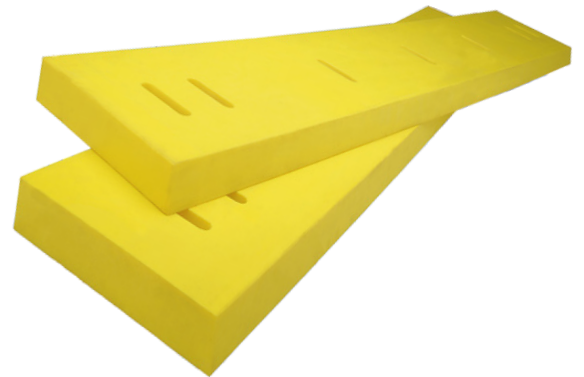

SBR Blades

- **Durable and Economical:** A cost-effective solution for standard plowing operations.
- **Reliable Performance:** Excellent abrasion resistance and flexibility in cold temperatures.
- **Ideal For:** Municipal, commercial, and general-purpose snow removal.

Polyurethane Blades

- **Premium Protection:** Gentle on road surfaces, painted markings, and sensitive areas.
- **Long-Lasting Strength:** Exceptional resistance to wear, chemicals, and impact.
- **Low Noise Operation:** Reduces vibration and noise for quieter plowing.
- **Ideal For:** Airports, decorative pavement, and high-end commercial applications.

Why Hanna Rubber?

At Hanna Rubber, we combine decades of material science and fabrication expertise to deliver SBR and Polyurethane snow plow blades that keep roads, parking lots, and runways clear, safe, and open all winter long.

- ✓ **Trusted reliability** – Quality blades, custom-fit options, and consistent performance from one dependable source.
- ✓ **Tailored solutions**– Material, durometer, and profile options to fit your exact plow and conditions.
- ✓ **Durable performance**– Designed for abrasion resistance, flexibility, and long service life in sub-freezing temps.
- ✓ **Commitment to quality**– Every blade built to deliver smooth, efficient snow clearing season after season.
