

A SINGER INDUSTRIAL COMPANY

HEAVY-DUTY HOSE FOR HIGH-TEMPERATURE EDIBLE OIL TRANSFER

Rubberworx™ F0201 is purpose-built for the transfer of hot edible oils in commercial food environments.

With its white FDA nitrile tube, wire braid reinforcement, and sanitary white nitrile cover, the F0201 is designed to handle temperatures up to 350°F. Ideal for fryers, oil recycling, and filtering systems, this hose delivers long-lasting performance in high-temperature, food-safe operations.

THE NEW STANDARD FOR HOT OIL TRANSFER

HEAVY DUTY HOSE FOR HIGH-TEMPERATURE EDIBLE OIL TRANSFER

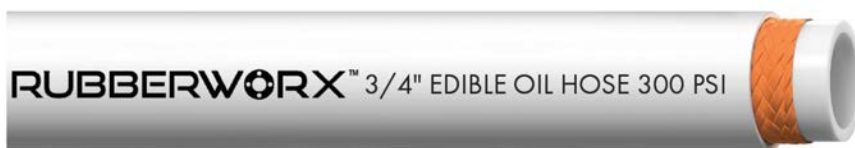

Designed with performance and food safety in mind, Rubberworx™ F0201 delivers premium quality hose construction trusted in commercial kitchens, processors, and fryer maintenance operations.

Its high-temp FDA nitrile core and smooth, durable white nitrile cover make it ideal for use with fryers, edible oil filtration systems, and recycling setups. Pre-assembled and tested by hose experts at Hanna Rubber, F0201 ensures safe and reliable operation with every order.

RUBBERWORX™ F0201 - EDIBLE OIL HOSE

PART #	ID (in)	OD (in)	WP (psi)	BEND RADIUS (in)	WEIGHT (lbs)	PACKAGING
F0201-050	0.50	1.05	300	6"	1.25	100'
F0201-063	0.63	1.15	300	6"	1.60	100'
F0201-075	0.75	1.13	300	6"	0.42	100'

- 300 PSI working pressure
- Available in 100' coils
- 6" bend radius on all sizes
- Sizes: 1/2", 5/8", 3/4"
