

A SINGER INDUSTRIAL COMPANY

DATA CENTER COLOR-CODED QUICK DISCONNECTS

COOLING LINE CONNECTORS FOR MAXIMUM FLOW

Built for the future of liquid cooling, our color-coded quick disconnects simplify service and protect uptime. Now available in two distinct styles to fit your application needs:

Flat Face Style

Flat Face Style (Universal Quick Disconnect - UQD)

A compact, no-spill option featuring color rings on each half of the coupler for easy identification.

Rated at 3000 psi with an automatic sleeve for secure, leak-free connections.

Straight-Thru Style

Straight-Thru Style (FST Series)

Designed for maximum flow, with hard anodized, color-coded sleeves for instant hot/cold line identification. Rated at 300 psi with manual sleeve retraction.

Available with Viton seals (-15° F to + 400° F) or EPDM seals (-40° F to + 300° F).

Product Highlights

- Engineered specifically for liquid cooling applications
- Available in multiple sizes: 1 /4", 3/8", 1 /2", 3/4"
- Fast visual identification reduces errors
- Built-in spillage protection for sensitive electronics
- Modular and scalable to grow with your system
- OCP compliant

Whether you need high-flow performance or compact, 10-spill security, Foster Manufacturing provides everything you need to connect, cool, and maintain with confidence.
